- DM opens the meeting and CF welcomes those who have joined.
- Richard Demetrius opens discussion in regards to why he and Rebecca Acerra have joined the BOH meeting. They are asking to be allowed an additional occupant at the 892 Cronin Road residence without upgrading the existing septic/leach field. After reviewing the current blueprints for 892 Cronin Road, the Board voted unanimously to allow the additional occupant without upgrades to current system.
As requested, a letter to that effect was drafted and mailed to the Richard and Rebecca on December 28, 2023.
- In review were the current outstanding write-ups and violations.
 - **24 North St., West Warren:** It was noted that one more attempt would be made to inspect the property to see if the violations had been corrected. If it was found to still be in violation, legal action would be the next step.
 - **27 North St., West Warren:** It was noted that this location has not corrected their violations and will have to be sent to legal.
 - **38 Elm St., Warren:** It was noted that this location has not corrected their violations and will have to be sent to legal.
 - **200 O'Neil Rd., Warren:** Has been condemned per Dan Thibodeau.
- Food establishment inspections will be conducted by Tricia Valiton. School inspections began on December 11, 2023.
- Transfer Station inspections & PFAS Testing: DM will obtain the PFAS Report. The DEP needs to be involved.
- Joseph Kondrat(JK) shares a compiled list of dumpsters & trash receptacles throughout the town. He feels the number of dumpsters and/or trash receptacles could be decreased, therefore saving the town some money. A request is made to find out what Burdett Trash Haulers is charging the town per dumpster/barrel.

- Next meeting will be held January 17, 2024, 6:00 pm.
