Chimes on Town Hall Clock

The meeting began at the Warren Town Hall. Mr. Delanski, Mr. Nardi, Mr. Rust and Mr. Soltys were present. The discussion was in regards to whether or not the chimes could be turned on. They entered the room where the control panel was located and found it to be locked and attempted to contact Mr. Seth Blackwell to unlock the control panel. He was unavailable. They determined the room did have heat which would support the functionality of the control panel. Mr. Delanski said he would contact the chief of police about cleaning up the room and ask Mr. Blackwell to come out and turn on the control panel.
